**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/594,469	<b>Applicant(s)</b> PEACOP ET AL.	
	<b>Examiner</b> NIKI M. ELOSHWAY	<b>Art Unit</b> 3781	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 01 March 2010.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

## DETAILED ACTION

### *Priority*

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 and 10-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Hjordie (U.S. 4,966,302). Hjordie teaches an arrangement comprising an open-ended container 1 and closure 2 therefor. The container comprises at least one projection 5 extending completely around its outer surface adjacent the rim 10 of its open, upper end. The closure 2 comprises a cover, at 9 and 16 shown in figures 1, 2 and 4, for extending over the open upper end and a skirt also shown in figures 1, 2 and 4 depending from element 9 of the cover. The skirt has an upper portion shown at lead line 6 in figure 2 and a lower portion at 3. The lower portion of the skirt may be flipped between a raised configuration, shown in figure 1, for mounting and removal of the cover on the container and a lowered configuration, shown in figure 2, in which it engages with the projection of the container thereby to retain the cover on the container. The lower portion of the skirt is divided into at least two discrete peripheral sections, as shown in figure 4, that may be flipped between the raised and lowered configurations independently of each other. See col. 3 lines 45-49. The annular channel is shown at 9. The projection of the skirt is shown adjacent lead line 3 in figure 2

***Response to Arguments***

4. Applicant's arguments filed March 1, 2010 have been fully considered but they are not persuasive. Applicant argues that Hjordie does not teach the limitation of claim 1 that reads "wherein the lower portion of the skirt is divided into at least two discrete peripheral sections that may be flipped between the raised and lowered configurations independently of each other". It is the Examiner's position that Hjordie teaches this limitation of claim 1. Specifically, the lower portion of the skirt is shown at 3 in the figures. There are two elements 3' that are diametrically opposite one another (col. 3 lines 38-45). The two sections of lower skirt 3 extends between the two 3' elements but from opposite sides of elements 3'. These two sections of lower skirt 3 are diametrically opposite each other, are discrete from each other and may be flipped between raised and lowered configurations independently of each other.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
